the allies' right have been remised. Germans Outnumbered.

Heavy withdrawals of troops have been made by the knizer's forces from Lorraine in an endeavor to strengthen the lines of Von Kluck and Von-Puclow, but it is not believed this will toake any material change in the sitnation because of the fact the allies practically contnumber the Germans two to one on the western section of and British troops are engaged along the whole battle front and 500,000 more are being held in reserve to reinforce

> MASONIC SIGN SAVES FIFTY MEN IN BELGIUM.

Never before have the Belgians, the Belgian Lodge Member Tells of an Incident at Louvain.

> Ostend, Sept. 25 .- via London .- The ower of Free Musonry is illustrated by a story told here by a citizen of Louvain, who, with a Masonie sign, says he saved fifty of his fellow citisens from being shot to death by German: froops,

This group of citizens, according to the recital of the Belgian Mason, had been lined up for execution. The German firing party had their riffes at Present arms!" when the narrato gave a Masonic sign.

The German officer commanding th firing squad happened to belong to the raft. He recognized a brother Mason and ordered the Louvain Mason to leave the ranks. This meant sparing his life. The Louvain citizen, however, refused, saying:

"My fellow citizens are no more guilty than I am. If you are going to kill them. I shall be killed with them. The German officer thereupon or dered the release of the entire party.

### COMPLETES REMARKABLE TEST WITH FRANKLIN CAR

COUNTRY MEN ARRIVE HERE AFTER 11 HOUR RUN ON LOW GEAR.

E. R. Nelson and Harry Hulst of Ishpeming and Dr. Belhumeur, the first named being upper peninsula agent for the Franklin automobile, arrived in 'alumet last evening after having empleted a run of 101.5 miles from Ishpeming to Calumet, over heavy roads, under conditions which make the test one of the most remarkable ever undertaken in this region. The car was running on low gear all the way, the engine not having been stopped once between terminals, the trip taking 11 hours and 8 minutes, One gallon of lubricating oil and ten and one-half gallons of gasoline were reuired for the trip,

The trip was a part of the nationedly had shortened the life if it had wide demonstration test, to which proceeding at different points to the not directly caused the death of Pope Franklin cars in every part of the centry were subjected yesterday. The fact such endurance runs were made simultaneously in so many places, acording to a prearranged plan, preuded the selection of especially facorable weather.

In making the run on low gear exdusively, it was the plan of the manuacturers to demonstrate the effectiveess of the air cooled engine, it being well known fact that the ordinary water cooled engine would encounter difficuities in running but a fraction of that time on low gear.

The trip from Ishpeming to Calunet was made without mishap or unoward incident, not a single punc ture having been experienced.
